DISCLOSURE OF ORDER ROUTING INFORMATION

In accordance with Securities and Exchange Commission ("SEC") requirements, Beech Hill Securities, Inc. ("BHS"), is publishing statistical information about its routing of certain customers' orders in NMS Securities and Listed Options. SEC rules require all registered broker-dealers that route orders in certain equity and option securities to make publicly available quarterly reports that present a general overview of a firm's non-directed order routing practices. Please note that based on the SEC's requirements, these statistics capture only a portion of BHS's order flow. These statistics are intended to provide only an overview of BHS's order routing practices. Accordingly, the statistics do not create a reliable basis on which to assess whether BHS has satisfied its duty of best execution. BHS has made every attempt to provide these statistics in compliance with SEC Rules, however, errors may occur or certain system outages may cause the data to be incorrect.

Unless otherwise instructed by a client in writing, all client orders received by Beech Hill Securities will be executed on a "Not Held" order basis. "Not Held" orders provide Beech Hill Securities' trading desk with execution time and price discretion to seek the best execution reasonably available, but they provide no price protection. Please note that Beech Hill Securities reserves the right to reject any order (at the time that the order is placed) that is requested to be executed on a "Held" basis.
